**Speaker:** Prof. Dr. Zameel Cader

**Title:** 'The use of stem cells for the study of neurodegenerative diseases (tentative)'

**Abstract:**

To be updated

**Biography:**

Dr Cader's research focuses on understanding the mechanism underlying neurogenetic disorders such as migraine and nerve degeneration. He is Director of the [Oxford Headache Centre](#) and of [StemBANCC](#), a major public-private partnership aiming to develop the resources and expertise for successful drug development on a stem cell platform. He is also a practising consultant neurologist at the John Radcliffe Hospital.
